

COMPANY PRESENTATION

We are the source for electronic components

SERVICES

We are an **independent supplier of electronic components** with a worldwide network of suppliers and customers.

We deliver to well known customers throughout the world in the fields of security systems, medical systems, aerospace and automotive. We are also involved in international brokerage for electronic components.

OUR KEY-SERVICES

- procurement of **hard-to-find** components
- **cutting down lead-times** for urgently needed components
- **low-priced purchase** for long-term and/or scheduled deliveries
- successful brokerage of your **excess inventory**

ENGINEERING-SERVICES

We offer replacement/ special solutions (like Adapter solutions)

ADDITIONAL SERVICES

We offer in cooperation with external service providers

- testing and checking of components
- treatment of components
Refresh / Rework / Re-packing etc.

Our multilingual employees process your enquiries and orders efficiently and accurately and keep you informed about the current situation and trends. We adhere to permanently high quality standards in selecting our suppliers, checking deliveries and handling electronic components.
